INDEX TO VOL. V.

Acts of the Legislature (proposed).....14, 16, 18
Address of the President..... 8
ADAMS, GEORGE E., Disc. on Economy of Low-Pressure Heating.. 285
Air, Change if Required, H. EISERT..... 61
Air, Contamination of..... 6
Architects and Heating Engineers, the Relation Between, Paper LVI, by T. N. THOMSON..... 108
Assembly Rooms, Heating of..... 69
BARWICK, THOMAS, Disc. Warm-Air Furnaces..... 89
BOLTON, REGINALD PELHAM, Disc. Ventilation and Heating of Tall Buildings, 100; Disc. Architects and engineers..... 113
Blower System of Heating and Ventilation. Topical Question No. 7..... 150
Blowers (see Fans).
CARY ALBERT A., Disc. on Compulsory Legislation..... 46
CARPENTER, B. HAROLD, *Heating a Private Residence with a Warm-Air Furnace,* Paper LIV, 72; *Report on the Heating and Ventilation of Schools in Wilkesbarre and Scranton, Pa.,* LXVII..... 271
Carbonic Acid Generated by Human Beings, H. EISERT..... 62
CARPENTER, PROF. R. C., *Investigations of a Blowing Fan,* Paper LXII, 216; *Theory of the Centrifugal Fan or Blower,* Paper LXIII, 235; *Literature Relating to Blowing Fans,* Paper LXIV 240
Calculation of Centrifugal Fans for Ventilating Purposes, Paper LXI, by H. EISERT..... 195
CHEW, FRANK K., Disc. on Compulsory Legislation..... 51
Combustion, Products of, H. EISERT's Paper..... 59
Committee on Legislation, Report of..... 14
Committee on Membership, Report of..... 38
Committees on Heating and Ventilation of Schools.....19, 23
Compulsory Legislation..... .....14, 30, 46
CONNOLLY, JOHN A., Disc. Warm-Air Furnaces..... 88
Constitution and By-Laws, Revision of, New Constitution.....26, 37
Discussion at Saratoga Meeting..... 170
Disc. on Heating with Steam at or Below Atmospheric Pressure, 262; on Formulas for Disk Fans, 132; on Changes of Air Required per Hour, 134; on Upward and Downward Systems of Ventilation, 137; on Rating of Radiators, 141; on Heating and Ventilating Small Buildings, 158; on Proportioning Steam Mains, 276; on Economy of Low-Pressure Heating, 284; on Calculation of Centrifugal Fans..... 212

INDEX TO VOL. V.

Acts of the Legislature (proposed).....14, 16, 18
Address of the President..... 8
ADAMS, GEORGE E., Disc. on Economy of Low-Pressure Heating.. 285
Air, Change if Required, H. EISERT..... 61
Air, Contamination of..... 6
Architects and Heating Engineers, the Relation Between, Paper LVI, by T. N. THOMSON..... 108
Assembly Rooms, Heating of..... 69
BARWICK, THOMAS, Disc. Warm-Air Furnaces..... 89
BOLTON, REGINALD PELHAM, Disc. Ventilation and Heating of Tall Buildings, 100; Disc. Architects and engineers..... 113
Blower System of Heating and Ventilation. Topical Question No. 7..... 150
Blowers (see Fans).
CARY ALBERT A., Disc. on Compulsory Legislation..... 46
CARPENTER, B. HAROLD, *Heating a Private Residence with a Warm-Air Furnace,* Paper LIV, 72; *Report on the Heating and Ventilation of Schools in Wilkesbarre and Scranton, Pa.,* LXVII..... 271
Carbonic Acid Generated by Human Beings, H. EISERT..... 62
CARPENTER, PROF. R. C., *Investigations of a Blowing Fan,* Paper LXII, 216; *Theory of the Centrifugal Fan or Blower,* Paper LXIII, 235; *Literature Relating to Blowing Fans,* Paper LXIV 240
Calculation of Centrifugal Fans for Ventilating Purposes, Paper LXI, by H. EISERT..... 195
CHEW, FRANK K., Disc. on Compulsory Legislation..... 51
Combustion, Products of, H. EISERT's Paper..... 59
Committee on Legislation, Report of..... 14
Committee on Membership, Report of..... 38
Committees on Heating and Ventilation of Schools.....19, 23
Compulsory Legislation..... .....14, 30, 46
CONNOLLY, JOHN A., Disc. Warm-Air Furnaces..... 88
Constitution and By-Laws, Revision of, New Constitution.....26, 37
Discussion at Saratoga Meeting..... 170
Disc. on Heating with Steam at or Below Atmospheric Pressure, 262; on Formulas for Disk Fans, 132; on Changes of Air Required per Hour, 134; on Upward and Downward Systems of Ventilation, 137; on Rating of Radiators, 141; on Heating and Ventilating Small Buildings, 158; on Proportioning Steam Mains, 276; on Economy of Low-Pressure Heating, 284; on Calculation of Centrifugal Fans..... 212

DAVIDSON, MCCLELLAN, Disc. on Topic No. 9; Heating and Ventilating Small Dwellings..... 166
DEAN, MARK, Disc. on Simple Means of Heating Small Dwellings, 167; on Breaking Up Drafts in Forced Ventilation Work.. 167
Direct-Indirect Radiation, Proportioning. Topical Discussion No. 6..... 147
Dwellings, Simple Means for Warming and Ventilating. Topic No. 9..... 158
EISERT, H., *Necessity of Ventilation*, Paper LIII, 57; *The Calculation of Centrifugal Fans for Ventilating Purposes*, Paper LXI, 195; Disc. on the Loss of Heat from Hot-Air Flues.. 155
Fan, Blowing, Investigation of a, Paper by R. C. CARPENTER, LXII..... 216
Fans, Blowing, Literature Relating to, Paper by R. C. CARPENTER, LXIV..... 240
Fan, Centrifugal Theory of the, Paper LXIII, by R. C. CARPENTER.. 235
Fans, Centrifugal, Calculation of, H. EISERT's Paper, LXI..... 195
Fans, Centrifugal, Experiments with, W. S. MONROE's Paper, LVII..... 117
Fans, Disk, Some Formulas for, PROF. KINEALY's Paper, LVIII.. 128
Flues, Hot-Air, Loss of Heat from, Disc. by M. EISERT, Topic No. 8..... 155
Formulas for Disk Fans, Paper LVIII, by PROF. J. H. KINEALY.. 128
FOWLER, A. H., Disc. in Rating of Radiators, 142; on Heating and Ventilating Small Buildings..... 162
Furnaces, Warm-Air, B. H. CARPENTER's Paper, LIII..... 72
GORMLY, JOHN, Report on the Heating of Schools in Philadelphia, 19; Disc. Warm Air Furnaces..... 87
HARVEY, A. J., Disc. on Capacities of Steam Traps..... 147
Heat Generated by Living Beings and by Illumination, H. EISERT.. 61
Heating with Steam at or Below Atmospheric Pressure, Paper LXV, by J. H. KINEALY..... 243
Heating a Private Residence with a Warm-Air Furnace, Paper LIII, by B. H. CARPENTER..... 72
Heating and Ventilation of Schools in Wilkesbarre and Scranton, Pa., Report by B. H. CARPENTER, Paper LXVII..... 271
Heating and Ventilation of Schools in England; Report by D. M. NESBIT, Paper LXVI..... 265
Investigations of a Blowing Fan, Paper LXII, by R. C. CARPENTER..... 216
JELLETT, STUART A., on Revision of the Constitution and By-Laws, 26; Disc. on Compulsory Legislation, 31; on Heating Assembly Rooms, 69; on Warm-Air Furnaces, 91; on Ventilation and Heating of Tall Buildings, 99; on Architects and Engineers, 115; Report on the Relations Between Heating Engineers and Architects, 171; on Changes of Air Required per Hour, 134; on Upward and Downward Systems of Ventilation, 139; on Capacities of Steam Traps, 144; on Direct-Indirect Heating, 147; on the Blower System, 150; on Simple Means of Heating Small Dwellings..... 165

JOSLIN, H. A., Disc. on Steam Traps..... 145
KENRICK, ALFRED E., on Schools in Brookline, Mass., 24; Disc. Warm-Air Furnaces..... 85
KENT, WILLIAM, Disc. on Heating with a Warm-Air Furnace, 81; on Architects and Engineers, 112; on Formulas for Disk Fans, 132; on the Duty of an Engineer to His Client, 136; on Upward and Downward Ventilation..... 137
KINEALY, PROF. J. H., *Heating with Steam at or Below Atmospheric Pressure*, Paper LXV; *Some Formulas for Disk Fans*, Paper LVIII, 128; Disc. on Economy of Low-Pressure Heating, 283; on Calculation of Centrifugal Fans; on Investigations of a Blowing Fan..... 233
Legislation Proposed Relating to Heating and Ventilation..14, 16, 18
Legislation, Compulsory Report of Committee on, 14; Discussion on 30, 46
Literature Relating to Blowing Fans, Paper LXIV, by R. C. CARPENTER 240
Low-Pressure Steam Heating, Paper LXV, 243; Disc. on Economy of; Topic No. 2..... 282
MACKAY, WILLIAM M., Report on Heating and Ventilating Schools in Newark, N. J., 23; Disc. on Compulsory Legislation, 30; Disc. on Capacities of Steam Traps, 145; on Apparatus for Heating and Cooking, 164; Disc. on Low-Pressure Heating..... 286
MCMANNIS, WILLIAM, Disc. on Breaking Up Drafts in Forced Ventilation Work..... 167
MEYER, HENRY C. JR., Disc. of Necessity of Ventilation, 69; *Some Points Regarding the Ventilation and Heating of Tall Buildings*, Paper LV, 94; Disc. on Upward and Downward Systems of Ventilation, 138; on Experiments with Centrifugal Fans 126
MONROE, WM. S., *Some Experiments with Centrifugal Fans*, Paper LVII..... 117
Necessity of Ventilation, Paper LIII., by H. EISERT..... 57
NESBIT, D. M., Report on the Warming and Ventilation of Schools in England, Paper LXVI..... 265
Paris Exhibition of 1900; Arrangement of Heating and Ventilating Exhibit, Report by W. J. WOLFE, 177; report by Special Committee 189
PAUL, ANDREW G., Disc. on Ventilation and Heating of Tall Buildings, 100; on Capacities of Steam Traps, 144; on Proportioning Steam Mains, 147; on Fuel Economy of Low-Pressure Heating..... 282
Public Buildings, Ventilation of Proposed Legislation.....14, 16, 18
QUAY, D. M., Disc. on Location of Air Exit-Openings, 71; on Proportioning Steam Mains; on Heating with a Warm-Air Furnace 85
Report of the Secretary..... 9
Report of the Treasurer..... 12
Report of the Board of Managers..... 12
Report of the Council..... 13

Report of the Committee on Legislation..... 14
Reports on Heating and Ventilation of Schools.....19, 23
Report on the Heating and Ventilation of Schools in Wilkesbarre and Scranton, Pa., LXVII, by B. H. CARPENTER.... 271
Report on Warming and Ventilation of Schools in England, LXVI, by D. M. NESBIT..... 265
Respiration, Products of..... 58
Relation Between the Architect and the Heating Engineer, Paper LVI., by T. N. THOMSON..... 108
RICHARDSON, D. S., Disc. on Warm-Air Furnaces..... 82
School-Houses, Ventilation of, Proposed Legislation.....14, 16, 18
Schools in Philadelphia 19
Schools in Newark, N. J..... 23
Schools in Brookline, Mass..... 24
Schools in Wilkesbarre and Scranton, Pa..... 25
Schools in England..... 265
THOMSON, THOMAS, N., *The Relation Between the Architect and the Heating Engineer*, Paper LVI..... 108
Theory of the Centrifugal Fan or Blower, Paper LXIII., by R. C. CARPENTER..... 235

TOPICAL QUESTIONS, DISCUSSION OF.

No. 1. The Number of Air Changes per Hour Which Should Be Allowed for in the Different Types of Buildings..... 134
No. 2. The Duty of a Heating and Ventilating Engineer to His Client 136
No. 3. What Are the Relative Advantages of the Upward and Downward Systems of Ventilation for Audience Halls?..... 137
No. 4. Would It Not Be in the Interest of the Purchaser to Rate Radiators by Their Heating Value Based on Certain Standard Conditions?..... 142
No. 5. Are the Capacities of Steam Traps as Given in Makers' Catalogues of Any Practical Value to the Engineer?..... 144
No. 6. What Rules are Usually Followed by Proportioning Direct-Indirect Radiation, and How Many Heat Units Are Given Off per Square Foot of Heating Surface per Hour Under Ordinary Conditions with This System?..... 147
No. 7. General Principles to Be Observed in the Installation of the Blower System of Heating and Ventilation..... 150
No. 8. What Is the Practical Experience as to the Loss of Heat from Hot-Air Flues, Especially When Such Must Be Located in Outer Walls?..... 154
No. 9. Simple, Inexpensive Schemes for Warming and Ventilating Small Buildings (Dwellings, etc.)..... 158
No. 10. Simple Methods of Breaking Up Drafts in Forced Ventilation Work..... 167

TOPICAL DISCUSSIONS AT THE SARATOGA MEETING.

No. 1. What Is a Safe Velocity for Steam to Travel in Steam Mains and Risers? Is a Half-Inch Valve Large Enough on the Steam Supply of Small Radiators?..... 276

No. 2. What Is the Relative Fuel Economy of Heating with Steam or Hot Water of Low Pressure and Temperature?... 282
Traps, Steam, Capacities of..... 144
Ventilation and Heating of Tall Buildings, Paper, LV, by HENRY C. MEYER, JR..... 94
Ventilation of Schools (See Schools).
WOLFE, WILTSIE F., Report on Arrangement of Heating and Ventilating Exhibit at the Paris Exposition, 177; Warming and Ventilating of Schools in England. Disc. on Mr. Nesbit's paper..... 270
WEBSTER, WARREN, Disc. on Proportioning Steam Mains..... 277
